## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-2 and 4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 1, applicant should clarify the connector portion projection and its relationship to the surface of the ring member.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1 and 4 are rejected under 35 U.S.C. 102(b) as being anticipated by applicant's admitted prior art of figures 1-6 (AAPA, hereinafter).

AAPA discloses an electromagnet assembly [figures 1-6] comprising:

-a ring member [1] formed of a tubular spool with a pair of annular flanges;

Art Unit: 2832

- a coil member [3];
- a ring case [4] having an annular groove with an open edge of which is in a direction parallel to its axis in which the coil member is disposed;
- an opening [4a] formed through the ring case adjacent to a closed end surface thereof; and
- a connector [5], connecting an external wire [6a, 6b] to the coil, mounted within and engaging the opening.

*Claim Rejections - 35 USC § 103*

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claim 2, as best able to be understood in view of the rejections under 35 U.S.C. 112, second paragraph, is rejected under 35 U.S.C. 103(a) as being unpatentable over AAPA in view of Ishimaru.

AAPA disclose the instant claimed invention except for: the connector being pressed into an opening of a magnet support member.

Ishimaru discloses a connector being pressing into an opening of a magnet support member.

Art Unit: 2832

It would have been obvious to one having ordinary skill in the art at the time the invention was made to press the member of AAPA into the opening, as suggested by Ishimaru, for the purpose of securing the member in place.

*Response to Arguments*

7. Applicant's arguments with respect to claims 1-2 and 4 have been considered but are moot in view of the new ground(s) of rejection.

*Conclusion*

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
